UK restricts travel to Sri Lanka

Colombo, July 8: New Zealand and the United Kingdom have issued fresh warnings to their citizens not to make non-essential travel to Sri Lanka, a newspaper reported on Thursday.

The travel advisories against visiting Sri Lanka, which were slightly relaxed just weeks ago, are now back and could further hurt the already struggling tourism sector, the Daily Mirror reported.

This follows a deteriorating crisis in Sri Lanka where people are battling against widespread shortages of even essential commodities like food, fuel and medicines amid rising anger against the government.

The governments of New Zealand and the United Kingdom have updated their travel advisories by citing the worsening economic situation and the potential for civil unrest, the report said.

Other countries which continue to maintain travel advisories against Sri Lanka include the United States, the Europe

Union, Canada, Australia and Ireland, it said.

Sri Lanka Tourism Development Authority Chairman Priantha Fernando said it was the responsibility of various governments to inform their citizens of the ground conditions abroad.

What is being touched upon are the inconveniences tourists might have to undergo in Sri Lanka due to the current conditions, he tweeted.

We are continuously working on providing a hassle-free experience to tourists, he added.

Tourist arrivals in Sri Lanka in June totalled 32,856, a marginal increase compared with the previous month, largely influenced by the Australia cricket tour.

A total of 411,337 tourists visited Sri Lanka in the first half of this year against 17,000 in the Covid-hit first half of 2021.

Rlys to implement video surveillance in 756 stations

Bhubaneswar, July 8: Indian Railways will implement Video Surveillance System (VSS) project (CCTV Cameras Network) under Nirbhaya Fund at 756 Railway Stations across the country.

According to a release from East Coast Railways (ECOR), the execution of the job through the agency has also been finalized.

The first phase of the project will cover major stations of categories A1, A, B and C numbering 756 and is likely to be completed by January 2023.

The remaining stations will be covered in phase-2 of implementation.

In order to enhance security at Railway stations which are major hubs of transportation, Indian Railways is in the process of installing Internet Protocol (IP) based Video Surveillance System (VSS) at stations, waiting for halls, reservation counters, parking areas, main entrance/ exit, platforms, foot over bridges and booking offices.

The Ministry of Railways has approved works for the provision of a Video Surveillance System over Indian Railways' major stations

under Nirbhaya funds.

Union Minister for Railways Ashwani Vaishnav said the new technology in Railways will be adopted be it for rolling stock, construction, safety, cyber security, or in situations where there is a human interface.

Chairman & Managing Director, RailTel Aruna Singh has assured that with the finalization of the executing agencies, the implementation of the project will be fast-tracked. The most modern software & hardware will be used in this project.

These CCTVs are being networked on optical fibre cable and the video feed of the CCTV cameras will be displayed not only at local RPF posts but also at a centralized CCTV control room at divisional and zonal levels.

?These new flights will enhance international connectivity and bolster trade, commerce and tourism between India and Bahrain which

is known for its pearl diving and trading tradition. Bahrain will be the first post covid international addition to the 6E network.
